Lingqing Wang

Ph.D. Student, Human-Centered Computing
Georgia Institute of Technology

wanglq@gatech.edu
Google Scholar | LinkedIn

Human-centered AI researcher studying how AI is becoming part of people's everyday and social lives, and how it reshapes their **relationships, agency, and sense-making** in turn. Combines **mixed methods, participatory and speculative design, and online experiments** to study **social AI and relational harm**, **explainable AI for end users**, and **participatory policy-making for generative AI** in higher education. First- and co-first-author papers at CHI, DIS, and CSCW, including a **CHI 2026 Best Paper Honorable Mention**.

Research Interests: Responsible AI, Human-Centered AI, Social Use of AI, AI Ethics, Relational Harm, Infrastructuring

EDUCATION

Atlanta, GA
2023 – 2028 (exp.)

Georgia Institute of Technology
Ph.D. in Human-Centered Computing
Advisor: Ashok Goel | GPA: 4.0 / 4.0

2024 – 2026

M.S. in Computer Science | GPA: 4.0 / 4.0

Beijing, China
2019 – 2023

Tsinghua University
B.Eng. in Industrial Engineering, focusing on Human Factors | Minor in Psychology
GPA: 3.86 / 4.00 (major) | 4.00 / 4.00 (minor)

RESEARCH EXPERIENCE

Atlanta, GA
2023 – Present

Georgia Institute of Technology

Futuring Human-AI Social Assemblages

- Used **co-design and speculative design** to explore how different **social AI roles** affect interpersonal relationships, and derived **relation-based design implications**. [CHI '26 Paper, View Project ↗]
- Ran **online studies on Prolific** examining how social AI design paradigms shape users' **interpersonal dynamics, responsibility attribution, and trust**, using a mixed-methods approach. (in submission)
- Investigated **relational risks** reported from social AI use in **online communities**.

Explainable AI (XAI) in Everyday Settings

- Explored **end users' perspectives** on embedding XAI into **daily AI applications** with mixed methods: **thematic analysis** of open-ended data [DIS '25 Paper, View Project ↗] and **quantifying the effects of XAI design properties** recommended in the literature [CHI EA '25 Paper, View Project ↗].

Infrastructuring Responsible GenAI Integration in Higher Education

- Explored students' GenAI integration practice in learning and the forming **dependency on GenAI** through interviews and diary study. (in submission)
- Initiated a collaboration with Georgia Tech's **Center for Teaching and Learning (CTL)** to examine how instructors **regulate GenAI in the classroom** and the **policy-making strategies** they use. (in submission)
- Developed **toolkits** that help instructional teams and students **make classroom AI policy together** and cultivate **social norms for engaging with AI responsibly** in learning.

Remote
Jul – Sep 2022

Northeastern University

Transformational Game to Foster Machine Learning Bias Literacy [CSCW '25 Paper, View Project ↗]

- Designed and evaluated a **board game** that builds **ML bias literacy** and **ethics discourse** around ML applications in **job searching** among higher-education students.

Systematic Literature Review on Homelessness [CHI '23 Paper]

- Conducted a **systematic literature review** in the context of the homeless population to examine the **unintended harm** technology causes **vulnerable communities**.

Remote
Mar – Sep 2022

University of Illinois Urbana-Champaign

Safety Risks and Safety Design in Social Virtual Reality (VR) [CSCW '23 Paper, View Project ↗]

- Investigated user experiences of **safety risks in social VR** with **mixed methods**, providing **design implications** for safe and inclusive 3D virtual worlds.

SKILLS & METHODS

Research	Mixed Methods, Participatory Design, Interviews, User Experiment Design, Statistical Analysis, Diary Studies, Focus Groups, Surveys, Thematic Analysis, Ethnography, Prototyping
Programming	R, Python, SPSS, JavaScript, HTML, CSS, LaTeX, SQL
Languages	English (professional working proficiency), German (conversational), Mandarin (native)

AWARDS & HONORS

2026	**Best Paper Honorable Mention**, CHI 2026
2026	**Future Leader**, ACM AI Leadership Summit
2026	**Special Recognition for Outstanding Review**, CHI '26 and IUI '26
2026	**Tech to Teaching Certificate**, Georgia Institute of Technology
2026	**Student Government Association Conference Fund**, Georgia Institute of Technology
2025	**Doctoral Consortium**, Summit on Responsible Computing, AI, and Society
2022	**Five Stars Volunteer of Tsinghua University** (highest honor)
2020 – 2022	**Tsinghua University Scholarship for All-Around Abilities** (highest honor)
